

7-KETO MUSCLEAN helps you reduce fat while improving whole-body leanness. It is not just a "weight loss" product; it also encourages improvements in body shape, tone, curves, lines and definition.

YOU'VE BEEN AT THE MERCY OF TWO METABOLIC BARRIERS THAT CONTROL YOUR ABILITY TO LOSE FAT... THAT ENDS NOW

Hardly anyone has a perfect metabolism... one that automatically works to keep you in ideal form. Even if you do everything right to get leaner, you may still struggle with your body fat percentages. Two metabolic factors are behind this problem.

First, is your body's ability to optimally produce thermogenic enzymes, which create heat and burn calories. This condition may have not been a problem in your younger years, but it gets worse as you grow older.

If your production of these enzymes is off, the second factor, your metabolism, comes into play. When you begin dieting, your metabolism may diminish even further as you reduce calories. Your quest for more fat loss then becomes infinitely more difficult. Fortunately, science has discovered a metabolite, (7-Keto™) that can boost the necessary enzyme production. Beverly took what science discovered and created 7-KETO MUSCLEAN, a formula that enables almost anyone to overcome these metabolic roadblocks.

7-KETO MUSCLEAN
 Clinically Dosed Fat-Loss & Energy Catalyst

7-KETO MUSCLEAN: "THE CALORIE KILLER"

7-KETO MUSCLEAN is named after one of its key ingredients, 7-keto-dehydroepiandrosterone, often abbreviated as 7-keto. Two randomized, double blind, placebo-controlled, clinical studies demonstrated amazing results from a 200-mg dose of 7-Keto. In one 8-week study, 7-Keto was responsible for three times more weight loss versus placebo, with the weight loss due solely to fat reduction, not water or muscle loss.

Another study of the same duration confirmed these findings by testing two groups with similar diet and exercise programs. The 7-Keto group showed a dramatic improvement in body composition, (i.e. fat loss/ muscle retention) in comparison to the placebo group, which reduced weight slightly, due to muscle, water, and fat loss in similar amounts.

Both research groups used 200 mg per day of 7-Keto, in divided doses. This is the exact dosage contained in two servings of 7-KETO MUSCLEAN.

Other lab tested ingredients carefully balanced for maximum impact include:

- **Green Tea & Guarana:** Clinical studies show that green tea increases metabolic rate and guarana enhances mood.
- **Bromelain & Grapefruit Extract** help reduce water retention. Grapefruit also contains compounds that increase thermogenesis and muscle glucose uptake.
- **Hoodia** contains compounds that fool the brain into thinking it is full, thereby reducing your risk of overeating.

Supplement Facts

Serving Size: 3 capsules Servings Per Container: 30

	Amount Per Serving	%DV
Niacin	20 mg	100%
7-Keto® (7-keto DHEA)	100 mg	**
Camellia sinensis (Green Tea) Extract (leaf)(20% caffeine)	500 mg	**
Paullinia cupana (Guarana) Extract (seed)(22% caffeine)	500 mg	**
Hoodia gordonii (powder)	120 mg	**
Bromelain 2400 GDU	45 mg	**
Grapefruit Extract (4:1 concentrate)	45 mg	**

**Daily Value (DV) not established.

For General Weight Loss: Take 3 capsules, twice per day. Start by taking 2 capsules in the morning upon arising and 1 capsule midafternoon. Many get the results they want on just three capsules daily.

For maximum results: Take 3 capsules 7-KETO MUSCLEAN in the morning and afternoon (6 capsules total), and combine with Lean Out. Do not take more than 3 capsules at once or 6 capsules in 24 hours.

You may also consider adding UMP, Energy Reserve, and Muscularity or Glutamine Select to your fat loss supplement program.

"Don't settle for a sluggish metabolism. Let 7-KETO MUSCLEAN trigger your body to burn that stubborn fat."
